COMPdata Insight ***Frequently Asked Questions***

What is COMPdata Insight?

COMPdata Insight is a new consulting service where COMPdata staff prepare targeted reports (at your direction), analyze the data, and interpret the results for you.

Why was COMPdata Insight introduced?

Some IHA member Hospitals have mentioned to us that they don't have the in-house staff to prepare and analyze their own COMPdata Reports. Thus, they asked us to begin offering this service.

How does COMPdata Insight work?

COMPdata staff will interview and discuss your targeted needs. We'll then run the COMPdata Reports that best meet your specific needs. Finally, we'll help you interpret the reports and answer any questions you may have.

What are the advantages of COMPdata Insight?

- COMPdata staff prepares specialized reports, analyzes the data, and interprets the results with you – this allows you to focus on using this actionable information (not on the tasks and mechanics of actually preparing the Reports).
- COMPdata experts will prepare the most relevant targeted COMPdata Reports based upon the unique needs of your Hospital as identified in the interview process.
- COMPdata Insight fees are affordable and reasonable - we're told the fees are much less expensive than other consulting services that IHA Members have used in similar circumstances.

What are the fees for COMPdata Insight?

Depending on service option you choose, COMPdata Insight fees will vary from \$1,985 for a single engagement to \$6,950 for a regular on-going quarterly engagement.

Does COMPdata Insight replace my existing COMPdata Internet-based account?

No, COMPdata Insight complements and supplements your existing COMPdata account. We will use your Hospital's existing COMPdata account to prepare the Reports on your behalf.
